RESPONSE TO RESTRICTION REQUIREMENT

Sir:

In response to the Office Action dated July 26, 2007, Applicants provisionally elect the claims of Group I (i.e., claims 1-5).

While the system of Group I and Group II and the method of Group III may be distinct as set forth by the Examiner, Applicants believe that simultaneous examination will not present an undue burden. For example, the claims of Group I are drawn to an echo canceller for an asymmetric communication system, the claims of Group II are drawn to an asymmetric communication system and the claims of Group III are drawing to a method for downloading a filter coefficient of an echo canceller. The subject matter of the three claim groups can be found in class 370. Under such circumstances, the Examiner is encouraged to maintain the claims of Groups I, II and III in the same application. See, MPEP § 803.

Early and favorable consideration of the application is earnestly solicited.

Respectfully submitted,

Frank Chau
